Answer: but they

can't ... but missiles

is Coda!

(Because we are not
determined of prospect of
need to minute Coda
— though we should be!

(Pre-VN)

— or to strike missiles

(") — despite

alliances; cas; fear of
"agitation"/VA; (SO det.);
Buckin, Turkey ... (SO same as too
with credit for
auto.)

Scants: defusing Turk
minerals

(remaining minerals —
they belonged to Turks!
but IL-280% Cuba!

thus, US relation to
Turkey = SU/Cuba!

(have did one side
definitely / removed ?!)

— Did Sars have more benefits
but IL-280% in Cuba?

Did it seem to
anyone — re CS
IRBMs — that it was
a dangerous prelude
to use IRBMs to
threaten superpowers —
give SU push in
IRBMs?

(like heading SALT
limits on MRV's!)

Start:

- US we worked in
Rudy! Look at
problem, then caused!
("Would have put
us in Cuba?")

Would JCS send us
to Cuba with military
troops?

Were there how
we wanted for Troops?
